## Employment

**Fullstack Software Engineer**

Sep 2023 - Present

2MPROVE, Ronse

- Worked closely with design and product teams to transform high-level concepts into functional and user-friendly web applications. This collaboration resulted in the successful delivery of multiple projects within tight deadlines.
- Developed and maintained web applications using a combination of front-end (HTML, CSS, JavaScript) and back-end (PHP) technologies.
- Maintained direct contact with clients to understand their needs, provided regular updates and processed feedback to ensure the final product met or even exceeded their expectations.

**Intern Web Developer**

Jan 2023 - Apr 2023

STUDIO STUDIO, Gent

- Transformed detailed website designs into dynamic, responsive websites. Utilized HTML, CSS, JavaScript and PHP to create interactive user interfaces that improved user experience and increased engagement on customer websites.
- Focused on creating responsive and mobile-friendly web applications, ensuring a seamless experience across all devices.

## Soft skills

- Solution-oriented thinking
- Communicate clearly
- Strongly motivated
