Experience

Full Stack Developer – 2MPROVE
November 2023 — Today

- Worked closely with design and product teams to transform high-level concepts into functional and user-friendly web applications. This collaboration resulted in the successful delivery of multiple projects within tight deadlines.

- Developed and maintained web applications using a combination of front-end (HTML, CSS, JavaScript) and back-end (PHP) technologies.

- Maintained direct contact with clients to understand their needs, provided regular updates and processed feedback to ensure the final product met or even exceeded their expectations.

Web Developer Intern – Studio Studio
January 2023 — April 2023

- Transformed detailed website designs into dynamic, responsive websites. Utilized HTML, CSS, JavaScript and PHP to create interactive user interfaces that improved user experience and increased engagement on customer websites.

- Focused on creating responsive and mobile-friendly web applications, ensuring a seamless experience across all devices.

Education

Bachelor Multimedia & Creative Technologies
September 2020 — June 2023

- Specialized in Web Development with technologies such as React, Angular, Node.JS or Laravel.

- Graduated Cum Laude
